Comments	<input type="text" value="Housing Delivery No new permissions in rural areas are needed as the target already exceeded. Why are developers allowed to put land forward for development in rural areas on Good Agricultural Land where targets have already been Exceeded. Traffic The amount of extra traffix generated by 25 new houses & another 6 retirement houses with double garages & little or no public transport available this will drive up C02 emissions and drive down air quality. Landscape impact. The proposed development will adversely affect the local character of the village and the outlook over the ANOB This development is unnecessary inappropriate & unsustainable and should be refused. These comments are also on behalf of FG Lewis & Lyn Simms"/>
