REF 21/0421/F

Dear Mr Campbell,

We write as residents of Sibford Ferris to object strongly to the above planning application .

The local housing quota plans have been met and exceeded so therefore any new applications must surely be appropriate, strictly necessary and in complete sympathy with our area.

All the roads in our village are unsuitable for heavy traffic and indeed have signs up to say so , are in poor condition and have to bear agricultural heavy traffic , school buses and local buses - although the service has been again reduced .We have poor lighting , few foot paths and many parked cars causing congestion and angry episodes. Occupants of the proposed houses would certainly need their own cars thus exacerbating the situation.

The proposed development uses agricultural land and extends the village. Woodway Road is a very rural , single track road in this designated conservation area .The nature of this area would be changed and not in a good way . The proposed houses do not look sympathetically designed or well thought through and their "greenness" leaves much to be desired .

This development is unnecessary , inappropriate and unsustainable . We urge you to reject it please.

Yours Sincerely,
