

Water Use Assessment

Calculation Report

Client: Burrington Estates

Certificate Ref: BE44581478 Performance Target: 110 (litres / person / day)

Issued: 20 January 2022 Building Regulations Part G - 1101

Project Details: Hempton Road - Plot 1

Occupancy for Calculation Purposes

External Water Use Allowance (I)					5.00
Total Consumption Part G (I/p/day)					108.07

The calculation methodology uses the water consumption figures provided from manufacturers' product details. Where details have not been provided, assumed figures have been used to achieve compliance. These must be met in order to satisfy the Part G Calculation for Hempton Road - Plot 1. The calculation methodology is to be used to assess compliance against the water performance targets in Regulation 36. It is not a design tool for water supply and drainage systems. It is also not capable of calculating the actual potable water consumption of a new dwelling. Behaviour and changing behaviour can also have an effect on the amount of potable water used throughout a home.
