

Water Use Assessment

Calculation Report

Certificate Ref: BE44581520 Performance Target: 110 (litres / person / day)

Issued: 20 January 2022 Building Regulations Part G - 110l

Client: Burrington Estates Number of Bedrooms: 3

Project Details: Hempton Road - Plot 17 Occupancy for Calculation Purposes 4

The calculation methodology uses the water consumption figures provided from manufacturers' product details. Where details have not been provided, assumed figures have been used to achieve compliance. These must be met in order to satisfy the Part G Calculation for Hempton Road - Plot 17. The calculation methodology is to be used to assess compliance against the water performance targets in Regulation 36. It is not a design tool for water supply and drainage systems. It is also not capable of calculating the actual potable water consumption of a new dwelling. Behaviour and changing behaviour can also have an effect on the amount of potable water used throughout a home.
