Comments	<input type="text" value="My primary concern is on traffic and parking. This proposal will severely impact the already restricted access along this heavily parked and frequently blocked lane. Where will the contractors park and how will delivery of building materials be made without lengthy obstruction? As my property forms part of this terrace of five thatched cottages, fire risk and spread is a major concern. It is essential that access for fire emergency vehicles is not impeded. Furthermore with the GP surgery within 100 metres, swift ambulance access is vital."/>
