Comments	<input type="text" value="I object to this application mainly on the access and parking facilities. There is insufficient parking for the row of small traditional cottages already. A larger house implies another car. There is no room on this narrow potholed lane for builders vans, delivery lorries, tradesmens' vehicles, skips or material storage during a build without blocking access to fire-engines (the terrace is thatched) and Sibford surgery which itself generates a constant flow of cars already struggling to pass the row of parked vehicles."/>
