Comments	<input type="text" value="I can see the applicant has reduced the size of the proposed extension, but the access issues remain the same. Our surgery, which is opposite the proposed site, has recently written to our village magazine stating that there are now 3000 patients registered at the surgery. Parking is restricted, the road is very narrow and the surgery relies on the good nature of the residents of the development opposite, who allow surgery staff/patients to park on their land. Furthermore, the state of the road leading to the surgery is perilous, with large potholes peppering the road. The parking of any large vehicles in the lane will lead to reduced access for residents, some of whom are elderly and will be unable to walk greater distances and, I fear, the blocking of private drives, resulting in even greater difficulty for patients at the surgery."/>
