Subject: Objection to Application (22/00385/SO).

Dear Sirs

It appears that this application is no longer on the portal and therefore people are unable to comment.

I wish to object most strongly to this application on the following grounds;

Intrinsic Landscape Character of the land to the east of the A361. It was recognised by the Inspector in his report in 2015 as being of high visual landscape value and development of this area would have significant harmful effects on the landscape character.

Highways Impacts - The current infrastructure cannot accommodate further development. This was also recognised by the Inspector. It is not viable to provide the infrastructure required and there is no plan to do so.

Environmental Impact – To natural habitats for wildlife, plants and trees. Congestion at the Junction 11 roundabout is significant at times and idling engines will only destroy the environment further.

Rural areas must be protected and not further urbanised.

Regards

Heidi Fowler
