Comments	<input type="text" value="The village lacks the infrastructure to support such an application. I believe disposal of sewage could be a problem, it would put an unacceptable strain, on an already stretched doctors surgery, there is no shop, a very limited bus service would mean more cars on the village access roads, causing congestion and pollution. The proposed access is potentially dangerous as it is close to a bend. It would change the character of the village, which I believe to be designated category c. I do not support this application for the above reasons."/>
