<b>Comments</b>	<input type="text" value="The village is a category C village. The roads and services within the village can not support such a development. The village sits within ANOB and there is no requirement for additional housing on this scale. The noise and pollution would increase both during the construction phase and once the properties were occupied, adding to the carbon footprint of the village when the priority should be to reduce our carbon emissions. There is no benefit to the existing village and its community. The single road leading in and out of the village is not suitable for additional traffic."/>
