<b>Comments</b>	<input type="text" value="I object to the planning application 22/00489/F as Shenington Village is a Category C Village and as such has fulfilled its obligation for infill to date. 49 dwellings would affectively change the whole aspect of the village in character and appearance. The application infringes on the conservation area of the village and the village character area. We know that the local power station is operating at capacity and the local grid is full. We already have power cuts. There is very limited public transport so the road network out of the village will become overloaded with the amount of vehicles which will drive in and out of the site. The Shutford Waste Treatment is also at full capacity and Shenington is known for sewage problems as the system already can't cope and has extensive problems."/>
