Comments	<input type="text" value="I would like to put forward my objection for this development to go ahead as we live in a small village and this would be a massive impact to our roads, water supply. We only have 1bus that comes 3 times a day that go through shenington and to to the main town.due to this there would be a massive increase to the amount of car that would be using the lanes through shenington and would not only make alot more traffic, it would make the roads unsafe and more dangerous for the children and for the people of the village . I do not agree that this plan should go ahead as this is a historic village and would like to see it stay that way weiyh minimal change made. I would you will take everyone that have made a objection against this development happening before this any decisions are made"/>
