Comments	<input type="text" value="I object to this development as it will be detrimental to the village by virtue of the number of proposed dwellings in comparison to the current number of dwellings in the village. The current infrastructure will not support a development of this size and, because it is an old village, it is not possible to improve the infrastructure to accommodate these dwellings without a detrimental impact on the current residents and village life. We already suffer from too many cars entering and leaving the village at peak times and at inappropriate speeds. To add to this volume of traffic would make peak time traffic even worse."/>
