

Comment for planning application 22/00489/F

Application Number	<input type="text" value="22/00489/F"/>
Location	<input type="text" value="Os Parcel 9078 And 9975 Adjoining Stocking Lane And North Of Rattlecombe Road Stocking Lane Shenington"/>
Proposal	<input type="text" value="Erection of 49 dwellings (17 of which (35%) will be affordable homes) with associated garages, parking and refuse storage, private gardens and communal open space/play space, hard and soft landscaping (including SUDs feature and means of enclosure, reinstatement of hedging and ironstone walling along Rattlecombe Road)"/>
Case Officer	<input type="text" value="Robin Forrester"/>
Organisation Name	<input type="text" value="Aubrey Powell"/>
Address	<input type="text" value="Lower Farm, Church Lane, Shenington, Banbury, OX15 6LY"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="As a homeowner, we live in Shenington on the main road between Shenington and Alkerton. A small twisty road where traffic often has to stop to give way to others. In the mornings and evenings due to Shenington Primary School and people going to work or shopping it is particularly busy and chaotic. The go carting club are not allowed to go through the village due to the congestion it would cause. Another 40 odd houses by the Primary School is going to make unacceptable amounts of traffic chaos in the village. Stocking Lane leading to the Primary School and the Surgery is already too narrow with cars continually stopping to let others through. 40 odd new houses with x2 car families = another 80 cars will be adding to to noise, disturbance, and futher traffic chaos in a tiny peaceful rural village. Shenington has one small pub, no shop, an already overwhelmed surgery, a small Primary School, very limited bus service and no secondary school, so the need for people to travel is paramount. I believe the village will be overstocked with people (probably x 3 to 4 average per household adding another 160 odd persons) by adding another 20% of houses to the already existing number of dwellings. We are on a septic tank system as are many in the village and have been told we cannot be added to the main sewage system due to the small bore pipe. How is this going to be affect the proposed number of houses being built ? Not to mention the continual disturbance during the build time of lorries, cement mixers, builders, more vehicles and tradesmen plaguing the tranquility of the village for months and months. Unacceptable on every level. In a nutshell, Shenington has nothing to offer in terms of facilities or space to a large group of people and their accompanying transport. Aubrey Powell"/>
