Comments	<input type="text" value="I strongly object to these proposals because: (1) it will irrevocably, and in a single development, change the character of Shenington (a Category C village); (2) inadequate or no consideration has been given to the impact of additional inhabitants on the available utility resources, which are already strained (particularly in respect to electricity and drainage, both of which regularly fail); (3) the absence of existing shops and/ or employment and/ or secondary schools, and the lack of any reliable public transport, will require new residents to use their own private car(s), leading ineluctably to an unacceptable level of traffic on roads which are currently unsuitable for such a significant vehicular increase. This is a safe and peaceful environment that can accommodate new residents comfortably but only on an incremental basis using restoration and/ or redevelopment of existing stock. These plans have not been properly thought through and I am surprised and disappointed that it has reached this stage in the process."/>
