<b>Comments</b>	<input type="text" value="I object to the above planning application on the grounds of safety and insufficient infrastructure to support 49 additional homes. It is estimated this proposal would create 100 additional cars on a road system that lacks pedestrian footpaths and has two dangerous blind bends. Furthermore the existing sewage, water and electric system is unable to currently support the village with frequent sewage spills into the brook, power cuts and water pressure issues - this scale of development would only serve to exacerbate an already unacceptable situation."/>
