Comments	<input type="text" value="This proposal should not be considered acceptable for a category c village that is only suitable for conversions and small infill housing development. It is too many houses for a village of roughly 170 houses. It would make the road through the village even more unsafe, cause more flooding and pollution from the sewers and overload local services. The size of the proposal and materials proposed are not appropriate next to a conservation area and would change the character and beauty of the village."/>
