I am sure that OCC Highways will visit the site and make their own assessment. The Statement seeks to imply that the site will essentially be approached from the Tysoe/ Epwell direction. This is erroneous. Conservatively, 80% of the huge increase in traffic movements, will be in the direction of Banbury for the nearest station and supermarkets. This route through the village - Shenington with Alkerton, comprises sub-standard, unclassified highway; with almost no footpaths, (residents walk in the road) which is too narrow, of very steep gradient and with a sequence of blind bends. This is evidenced by the catalogue of serious accidents that continue to occur. The statement refers to CrashMap data. This is notoriously unreliable and misleading.
