Comments	<input type="text" value="I object to this huge development in a small category C village (Shenington with Alkerton), a village which has an infrastructure at full capacity ie. electricity, water, sewage and telecoms. Also a road system without paths , single lanes and blind bends. Surely road safety along with people's safety should be a priority before passing permission on the grounds of a government white paper and North Oxfordshire fulfilling it's quota. Government guidelines state that developments need to improve economic, social and environmental conditions, this proposal offers none. The 2050 local plan encourages this type of residential development in towns which ensures the vitality of the town centre, Banbury alone has offered 26 sites."/>
