Comments	<p>We are residents of Beagles Close where our garden backs onto the new developments (PR7a). We strongly object to this development on a number of points: GENERAL number of houses, type of houses, i.e. 2 storey and 2.5 storey, the proximity of the development to residential gardens, the air quality during construction and, the increase of heavy construction traffic on Bicester Road. This road already suffers from long queues due to the traffic lights at the junction of Bicester Road north and South (Miller and Carter junction). The air quality has been measured and is above the recommended levels as it is. WILDLIFE - it appears that no thought has been given the the wildlife we current enjoy. There are deer, foxes, rabbits, herons, owls, kites, hedgerow wildlife and Sparrow Hawks. SKY AT NIGHT - we are able to view the most stunning star constellations because there is no white light. Once the development is in place, this opportunity will disappear.</p>
