Annex A **National Highways Recommended Planning Conditions**

National Highways has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

National Highways interest in the case of this particular development proposal is in the A34, specifically A34 Peartree interchange.

We previously provided detailed comments for this application and provided a Holding Recommendation to give the applicant more time to respond (dated 6th April 2022). Since this time, we have not received evidence to satisfy our historic requests for information.

Recommended Non-Approval

It is recommended that the application (Ref: 22/00747/OUT) should not be approved for a period of 56 days from the date of this recommendation (until 22 July 2022) to enable further assessment to be undertaken.

Reason:

To ensure that the A34 Peartree Roundabout and the A34 continue to be an effective part of the national system of routes for through traffic in accordance with section 10 of the Highways Act 1980 and to satisfy the reasonable requirements of road safety.
