Comments	<input type="text" value="Should build another school and another access way. The roads in place right now are so sharp, not enough space there has been crashes and there is always confusion on the bailey road entrance as to whether one should give way because of the bend. I knew this was coming no matter how many times the sales advisor said that phase 3 was it but the roads we have barely support us now. In addition bloor house prices are way too expensive and cost of living balance needs to be considered first. Help to buy is about to end, there is a potential slow down on the horizon but if people are stuck in there current houses because they cannot afford bloor's inflated prices then who is going to move into them? Where will these children go to school? We need a local convenience area of a parade of shops if the estate is to get bigger. Just right now doesn't seem well thought out and more work needs to go in to make it work for both current and future residents."/>
