Comments	<p>I understand there is a proposal to build 250 houses as phase 4 of the Banbury Rise Development...which is why screening of the farm house is necessary. Apparently there are no new entrance or exit roads to this development and the current roads in the development are just not big enough or suitable to carry the volume of traffic. Also the service road will remain in place which is an unsightly nuisance and prevents proper landscaping of earlier parts of the development, thus spoiling living conditions at earlier parts of the development. Bloor say there will be further larger amounts of grassland but this is just more cost to residents to maintain an area for general public use which quite frankly is not fair. It is not fair that residents have to pay to maintain land which is used by members of the public.</p>
