Hello,

Unfortunately the link in the document does not take me to the personalised response page so I am sending the response via e-mail to ensure it is registered as a consultee response.

The Parish Council object to this application for the following reasons:

- The original application was designed to retain the characteristics of the old piggery which fitted with the conservation area and did not extend the building further down the Sib valley.
- The new application has amended the materials for the walls and the roof which no longer retain the original characteristics.
- A glass annexe has also been added that extends the development substantially and raises concerns of possible development creep down the Sib valley which might set a precedent elsewhere in the village.

Regards
