Comments	What a fantastic plan and scheme for what has been a waste land and blot on this area of the A41. Previously used for squatting caravans and fly tipping this will put a positive use to the land. Also with the creation of a large number of highly skilled jobs and will enable for the opportunity's of training Bicester youth to take on skills that will open them up to a more prosperous future. Smaller support businesses within the area will also benefit from the support and logistics that this development will create. I fully support this application and wish it well.
