Comment for planning application 22/01340/OUT

Proposal Description Application for outline planning permission (all matters reserved except means of access (not internal roads) from b4100) for the erection of buildings comprising logistics (use class b8) and ancillary offices (use class e(0)(10) floorspace; energy centre, hyp parking, construction of new site access from the b4100; creation of internal roads and access routes; hard and soft landscaping; the construction of parking and servicing areas; substations and other associated infrastructure. Case Officer David Lowin Drganisation	Application Number	22/01340/OUT		
(not internal roads) from b4100) for the erection of buildings comprising logistics (use class b8) and ancillary offices (use class e(g)(1)) floorspace; energy centre, hay parking, construction of new site access from the b4100; creation of internal roads and access routes; hard and soft landscaping; the construction of parking and servicing areas; substations and other associated infrastructure. Case Officer David Lowin Organisation	Location	Os Parcel 6124 East Of Baynards Green Farm Street To Horwell Farm Baynards Green		
Drganisation Vame Lucy Knill Address Meadow Cottage, The Street, Stoke Lyne, Bicester, OX27 8SE Fype of Comment Objection Prype neighbour Comments I object to this proposal. This is the third recent proposal for warehousing which, in combination with the other two proposals sited on adjacent land (submitted by Albion Land) has a most substantial impact on the villages surrounding Baynards Green, in particular the small village of Stoke Lyne. This proposal changes the area from agricultural to employment land use but has not been identified for any development in the Local Plan. The visual impact of warehousing on both sides of the B4100 as you approach Baynards Green from Bicester (presently open countryside) will be tremendous as shown by the visuals in the planning application. There will be considerable light pollution for residential properties in Stoke Lyne particularly at night time, and impact of noise and air pollution depending on the wind direction. The village already is impacted by noise from M40 and A43. Baynards Green is completely unable to cope with the current level of traffic. At peak times (from 4pm) queues of traffic stretch as far as Swift's House/Stoke Lyne turnoff in the direction of Baynards Green. It is already very difficult to turn right onto the B4100 from Stoke Lyne or to turn right onto A43 towards Brackley at the Baynards Green tis will only exacerbate the problem to the detriment of these villages. The development will further add to the traffic congestion between junctions 9 & 10 of M40 (already at capacity) and on the A43, past Brackley and Towcester up to the M1. Two intersections of the A43 at Towcester have recently been upgraded but still remain heavily congested with no visible improvement	Proposal	(not internal roads) from b4100) for the erection of buildings comprising logistics (use class b8) and ancillary offices (use class e(g)(i)) floorspace; energy centre, hgv parking, construction of new site access from the b4100; creation of internal roads and access routes; hard and soft landscaping; the construction of parking and servicing areas;
