Comments	I strongly object to the proposed development! The existing traffic at Baynards Green roundabout is already at full capacity, piling up from all directions causing daily chaos at peak times. A development of this size would be detrimental to Stoke Woods, surrounding villages and communities. Motorists already use these small villages to cut through at high speed from the motorway ignoring speed limits, residential areas and school bus routes. Countryside and wildlife would be destroyed. Light, noise and air pollution would have a huge negative impact on nearby villages. Stoke Lyne village would be swallowed up by this development and would become industrialised, causing damage to peoples mental and physical health. 'See attached'
