Comments	This proposed development is entirely inappropriate. This is a rural area and this development adds to the creeping urbanisation of much of the South East. It will impact very negatively on the surrounding countryside, wild life both animals and birds will lose habitat and they are being squeezed already. Environmental impact should be a major factor in assessing the suitability of this development. The whole of the local economy is struggling to find employees, there is no local unemployment so the development is completely unnecessary in economic terms. There is no sound reason to permit this development.
