Comments	<input type="text" value="I object to the proposed plans as this land is not in the government's plan for development and should remain as countryside. The local services are not keeping up with the numbers of people, cars and pollution as it is and this level of development will increase pressure on hospitals, roads, air quality and noise and light pollution. A friend in Ambroseden has felt the impact of the warehouses built there over the last year and notices that it is not as easy to sleep because of light and noise pollution. Traffic is much worse for her and young people in the area feel less safe about walking in their area because of workers in vans and lorries using their small roads. Stoke lyne and the nearby villages should not be subjected to the same problems. Bicester has seen a huge amount of building in recent years and yet the services provided do not match. This development would put even more pressure on the services in and around Bicester."/>
