Comments	I object. Aside from noise, air and light pollution I am also concerned about contamination of the local water courses by run-off from this development which by its nature will require a large amount of hard surfacing. Rather than seep at a natural rate into the soil, rainwater would more rapidly run off into the surrounding ditches and water-courses, taking along with it any spillages from any vehicles including HGVs using the site and thus potentially flooding and contaminating not only the immediate neighbourhood but other localities.
