Comments	<input type="text" value="Building this facility will seriously impact on the local environment. This is an area already being 'vandalised' by the building of HS2 and further developments will further increase the traffic flow on local roads, especially heavy goods vehicles. The A43 and local 221 roads are already over their capacity. We have also had enough of our local trees and hedgerows being destroyed by HS2 with the consequent destruction of wildlife habitats. Added to this, the increase to pollution from dust, fumes noise and light will have a serious detrimental affect on lives of a large number of communities who live in the area around the proposed site."/>
