Comments	<input type="text" value="An over use of green field space. Inconsiderate to existing wildlife, surrounding residential areas. These warehouse style areas cover a vast area and include taking over areas that sustain wildlife that could be considered rare in this area of the UK. Further more the additional noise, air, and ground pollution created locally by these warehousing areas has not been fully considered. Both affecting residents and wildlife. This infrastructure should be located on brownfield sites away from areas of special scientific interest and not on green field site areas."/>
