Comments	Sirs I find the above application very worrying for the following reasons: 1. To take more good arable land for warehousing when we should be growing more of our own food, is short sighted. At a time when we are all encouraged to grow more of our own food Oxfordshire is continually cementing over good arable land when there are brown sites available, There is MOD land at Bicester that sits idle. 2. The B4100 has seen a huge increase in HGVs from the warehouses in Bicester, and as our village has no bus service we have to use cars, more warehousing would be a disaster for this area, 3. There are also questions to be asked about where the great volume of water and drainage is going. 4. The visual impact on our small village will be overpowering, The pollution from Junction 10 which is due west is bad enough, to put more traffic due west is a health hazard. I hope you will turn down these applications.
