Name	Charlotte Smith
Address	2 Glen Close,Stratton Audley,Bicester,OX27 9BY
Type of Comment	Objection
Type	neighbour
Comments	The traffic around this junction/roads already blocks up throughout the day and as soon as there are any problems on the m40 it all backs up on all adjoining roads. The roundabout is already dangerous to pull out onto with no traffic control, people pulling out in front of vehicles already on the roundabout. Adding further traffic including HGV's is going to cause traffic delays for miles all day. It can already take 30 mins to get through this junction at low traffic times. This is going to force workers and lorries down through village and country roads to avoid the traffic which is going to cause damage to roads that are already suffer from massive potholes and crumbling road sides. This is before you even think of the environmental damage the long term affects of extra traffic and taking more green space is going to cause. I highly object to this plan, you need to find an area with better road access/junctions already in place, that does not have purposely allocated wildlife areas (like Stoke Woods) nearby. Stop turning Bicester's surrounding green space into a warehouse town.
