Comments	I wish to record my objection to this Development. The scale of the Development will completely change the character of this area for ever. The soft undulating landscape, with its scattered patches of woodland and wheat-fields will be completely destroyed by this Development. I see no justification for destroying the countryside, surely Developments of this nature should be located adjacent or close to existing areas of warehousing. Bicester, Banbury and Brackley all have warehousing areas, which should be considered first. Urban locations, in my view are better served with public transport, workforce and transport infrastructure.
