Comments	<input type="text" value="I am against this application which should not be allowed to go ahead as it will create no end of disruption to poorly laid infrastructure. This number of large lorries and HGV's should not be allowed down B roads. Both air and noise pollution from the development both during construction and after it is finished will be terrible for our children, wildlife and ourselves. Our green spaces should be protected for farming and leisure as there is already a lot of development in the Bicester area. This is a greenfield site and should not be developed in this way. There are no transport links for workers at the sites further impacting our roads, and causing disruption for the local villages, which will be used as cut throughs by commuters to the warehouses.
