Comments	Although new and diverted roads are planned, this will not prevent a huge increase in traffic across the single lane, medieval bridge and causeway over the Cherwell at Lower Heyford. According to the proposal, the development at Ardley/Upper Heyford will create 9000 jobs, even if not all of these will be on the site, a significant proportion of them must be, this will take the traffic over the bridge (and through Lower Heyford) to a level that simply will not allow normal life to continue. This development will affect a far greater area then the immediate plot of land that is being proposed for development and will have a hugely detrimental effect on the local area, it is also not part of the local development plan which was supposed to last for 15 years.
