We write to object to the above planning application, which we think is totally in the wrong place, on a greenfield site and spread over a vast area of farmland, which if this development goes ahead will be covered with huge warehouses.

We note C.D.C.'s local plan does not envisage a development of this scale or type. The construction of a site this large with new roads and junctions would cause significant disruption to an area that is already very congested.

If this development is allowed to go ahead thousands of employees will be using our local roads every day to travel back and forth to work. This will create major environmental problems with lots of noise and pollution for local villages.
