Dear Cherwell

I have tried to log an objection through your website but the page just says 'error' every time I attempt to complete it so I have copied my reason for the objection below:

*There are so many reasons to object to this especially as I have a young family but the primary reason is urban sprawl has got to stop. There are so many brownfield sites that are not being adequately repurposed and using arable land for such a major development is appalling. Our children are going to have no green fields left and the impact this will have on their future is huge - climate change, loss of biodiversity and habitat for our wildlife, pollution and the danger the increased traffic that it will bring to our rural roads.*

I hope you will consider my objection along with all those who are going to be deeply affected by this planning application.

Regards

Clare Blakely
