Comments	The proposed area to build these warehouses is green belt land, there is no transport to this area at all, we live in a rural community and the traffic issues will make life for the village communities unbearable, I don't understand why CDC would even consider this proposal in such a rural area, these warehouses should be build in industrial areas where they can be accessed easily and workers can get to them using public transport or cars if needed, I can't believe they want to turn this beautiful country side into an industrial wasteland filled with metal boxes and excessive fumes from lorries transporting goods to other areas of the county
