Comments	Strongly object to this development, it is not needed. It will take valuable agricultural land that is currently used for food production and should remain so. It will cause immense traffic problems in an area which cannot cope now with the amount of traffic on the B4100, A43, Baynards Green and M40 Junction 10. It will take away our green and open countryside and will bring more light pollution to our skies. The amount of noise will also increase, probably 24 hours a day. Wildlife will be affected and their habitats destroyed. There is no public transport to the area so the workforce, who would most likely come from further away, would have to bring more cars to the area. The small, rural villages in this area should not be destroyed by an unnecessary, huge development such as this. Please refuse this application.
