Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<div><p>Dear Planning Department, I would like to object to this planning application on the following basis:</p><p>Traffic generation and road access - this will create a significant amount of traffic that will impact local people, who will suffer delays both during and after the works and will increase the air pollution in the local area as a result. 100 additional HGV lorries is sited in the planning application and this is just for construction. I am not clear as the operating hours of the plant but it seems to indicate that it will have lighting operating 24x7.</p><p>Noise and the disturbance - resulting from the proposed new use is pretty evident. This is a plan that will result in significant noise disturbances to local residence in Heyford park.</p><p>Light pollution- Impact on local trees and wildlife including birds due to potential light pollution from the site lighting and potentially the solar panels.</p><p>Nature conservation- I feel more could be done to support and actively encourage and mitigate the impact this will have on the natural habitat.</p></div>
