Comments	<p>I object to the application from Tritax Symmetry Park to build on the fields near Stoke Line. Yet another meaningless warehouse development encroaching on what is left of rural Oxfordshire. This is simply not required - there are already acres of warehouse development eating into nearby towns - the identities of Banbury and Bicester have been altered permanently by such development. This is pointless and not required. The impact on our environment will be significant. We don't require this building over such a vast area - the build will cause irreversible damage to our rural area; the impact on water run off, wildlife, noise, light, traffic etc will be devastating. If granted, this application will see our local greenery, fields, woodland and wildlife habitat lost forever. This is especially galling when we are in such close proximity to the consequences of HS2 development. I register my objection, and hope you take note of it. I do not wish to see further destruction of what is left of our local countryside.</p>
