Comments	The planning works should not be granted in my opinion. Bicester is expanding wider and farther and the infrastructure can not accommodate it. We are losing all the green areas, this is detrimental to both nature in that you will have so many species disturbed and their natural habitats destroyed, and to the well being of the community. How can children be expected to know where food comes from if there are no fields to grow crops or to house live stock. Not to mention the lack of damage to naturals drainage by destroying all the trees and hedgerows. Te entirety of the ever growing Bicester and the surrounding villages that are now joining to Bicester are fast becoming one big industrial site, an eye saw and causing irreversible damage to nature.
