<b>Comments</b>	<input type="text" value="Yet again this is going to create more traffic on a junction that already cannot deal with it, add increased accidents and pressure to the A361!which is already taking the strain of HS2 traffic and the warehouses in the other side of the road. It will dominate the landscape which is attractive and only increase flooding potential as the land is sloping. Tons of concrete pumped onto this will cause run off elsewhere, likely the roads. If the land is levelled there is an increased risk of subsidence on the hill behind it that has residential homes atop."/>
