Comments	"I would like to strongly object to this planning application. The size of this proposed warehousing development is completely out of scale with the surrounding area. The warehousing will be unsightly and not in keeping with the rural setting. The loss of green fields will impact on the wildlife, which is ever diminishing and should be protected in these areas. It does not following the CDC local plan and will put huge pressure on this junction, which at times is already congested. The extra air pollution caused by the addition traffic will do terrible damage to us and wildlife especially at a time when we are trying to create a greener environment to live in. There is a major safety issue to consider and that is the addition of a roundabout so close to a very sharp bend in the road as you come off the roundabout onto the A361. This is already a very dangerous corner for vehicles especially lorries and a roundabout so close to this blind corner will cause traffic to back up and will put drivers at risk of very serious accidents. The permanent loss of 100+ acres of green fields is shocking and irreversible. Please be responsible and think about our environment and do not approve this planning."
