Comments	<p>This appears to be Bicester Heritage trying to speed up the development of their Hotel by trying to get round the original limitation of not starting development until all stages of the development have been agreed. It appears they now want to start laying foundations prior to details of entrance to the hotel are agreed, whereas previously no work could start until the entrance details (and other details) had been agreed. I objected to the original plan but, Bicester Heritage managed to get it passed. I believe they should wait to commence foundation work until the prerequisite given on the original plan have been agreed. This is once again a case of greed from Bicester Heritage/Bicester Motion trying to bring this work forward. I note as well that Bicester Heritage have now changed their name to Bicester Motion, which confirms what we've always suspected, that when they purchaed the site they had no intention of looking after the heritage part of the site, but rather wanted to use it as money making enterprise making money from using the site as a racetrack and to host various events they could charge for.</p>
