Description of the Proposal
Please provide a description of the approved development as shown on the decision letter
Outline - Proposed new settlement of 1075 dwellings including the retention and change of use of 267 existing military dwellings to residential
use Class C3 and the change of use of other specified buildings, together with associated works and facilities, including employment uses, a school, playing fields and other physical and social infrastructure
Reference number
10/01642/OUT
Date of decision (date must be pre-application submission)
22/12/2011
Please state the condition number(s) to which this application relates
Condition number(s)
25 Prior to occupation of any new build dwellings, a verification report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of the remediation shall be submitted to and approved, in writing, by the local planning authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. It shall also include any plan (a "long-term monitoring and maintenance plan") for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification plan, and for the reporting of this to the local planning authority.
Reason - The site is underlain by the Great Oolite Limestone (Principal Aquifer) and this site has housed many potentially contaminative activities. We need to ensure that the site has been remediated to a level that ensures no lasting impact to groundwater.
