Comments	<input type="text" value="I am a resident of Horley and would like to support this application. The current parking situation in that part of the village is very messy with muddy verges, cars parked on both sides of the road, and a bit scary to walk through when there is also moving traffic. It must be unpleasant for the residents there as well, but they can speak for themselves.

Above all, as I live on the opposite end of the village to the proposed development, I am very worried about emergency vehicle access with the current parking arrangement. Sometimes it is difficult to get an ordinary road car through the narrow gap, and no ambulance or fire engine is guaranteed to get through. I was in the village when a major fire in nearby Hornton occurred and I watched with alarm the fire engines racing up and down our high street as access via the bottom of the village was blocked by parked cars."/>
