Comments	<input type="text" value="The width of the road at the location of the proposed car park is very narrow, and emergency services were not able to get through due to cars parked on the road for a recent incident. The emergency services had to go back to Wroxton to find another way to get through, luckily this didn't cause any loss of life but it could have. Having off street parking to maintain a safe access for emergency services through the village would be preferable."/>
